HUCHET Justin

Systems, Network & Cybersecurity Work-Study Student

Lyon, France • tinekhuchet@gmail.com
LinkedIn: linkedin.com/in/justin-huchet-608b47251

PROFILE

Systems, network and cybersecurity engineering student with experience in system/network administration, technical support, Active Directory, network security and monitoring. Looking for a SOC, operational cybersecurity or secure administration role.

SKILLS

Systems
Windows • Ubuntu • Debian
Infrastructure & tools
Active Directory • Office 365 • NinjaOne • Veritas System Recovery • Veeam
Security
Wazuh • Docker • Fortinet • Sophos • VPN/IPsec • firewall • monitoring
Networking / virtualization
Cisco • LAN/WAN • Wi-Fi • VMware • VirtualBox
Scripting
PowerShell • Python • C

CERTIFICATIONS

• Fortinet Certified Associate in Cybersecurity (11/2024–11/2026)
• FortiGate Operator v7.4
• Fortinet NSE 2 – Introduction to Cybersecurity
• Cisco Networking Academy – CyberOps Associate
• NDG Linux Unhatched

LANGUAGES

French: native
Polish: native
English: professional / technical

EXPERIENCE

Groupe Lagrange — Systems, Network & Cybersecurity Administrator (work-study) | 10/2024–2027

• Kept systems and applications running, provided user support and resolved technical incidents.
• Administered Windows/Linux, Active Directory, Office 365 and virtualized/cloud environments.
• Deployed workstations and servers; managed accounts, permissions, remote access and user needs.
• Managed the internal network, VPN and Wi-Fi; contributed to network security (firewall, filtering, segmentation).
• Deployed and operated Wazuh for security monitoring, with additional work on running it under Docker.
• Used NinjaOne, handled backup/restore operations with Veritas System Recovery, and wrote PowerShell scripts.
Ongoing project: voice AI to support customer service.

Koesio — IT Support Technician (internship) | 01/2024–02/2024

• User support, ticketing and remote assistance.
• Sophos/Fortinet firewalls, security rules and Veeam backups.
• Active Directory / FSMO, Office 365, Wi-Fi and PowerShell scripts.

EDUCATION

Master's, Year 2 – Systems, Network & Cybersecurity Engineering | 2026 – 2027
ICOF – Lyon, France — RNCP 38117, level 7
Master's, Year 1 – Systems, Network & Cybersecurity Engineering | 2025 – 2026
ICOF – Lyon, France
Bachelor – Software & Network Project Manager, Cybersecurity major | 2024 – 2025
ICOF – Lyon, France — RNCP 34568, level 6
BTS SIO SISR (2-year IT degree) – Lycée Les Chassagnes, Oullins (near Lyon) | 2022 – 2024

PROJECTS & ACHIEVEMENTS

• Deployed and operated a Wazuh solution; worked with Wazuh under Docker.
• Programming and scripting: Python, C and PowerShell (coursework + professional use of PowerShell).
• Network hardening work, hands-on Cisco practice in an academic setting and introduction to ISO 27001.
• Active Directory security lab project: BloodHound, Impacket, NetExec, Responder, AS-REP Roasting, Kerberoasting, attack path analysis and auditor accounts for POCs.
